

Feature of the Week- 09/14/09

UPS Negotiated Rates in iabol

iabol now offers the ability to display your UPS negotiated rates when estimating rates and generating shipping labels. This new feature will help you make better decisions about your shipping, make bill reconciliation easier and help improve customer satisfaction by providing more accurate shipping rates.

Setting up your UPS Negotiated Rates in iabol is easy! Just go to your iabol dashboard and select "Edit Carrier" for UPS. Select "Next" in the Carrier Setup Wizard until you locate your UPS Rate Access Code. Then, all you have to do is contact your UPS Account Representative and provide them with your UPS Account Number and the UPS Rate Access Code and request that they enable Negotiated Rates to be displayed for your account. That's it! For more info on UPS Negotiated Rates, call us at 877.847.2265.
